Section 1

INTRODUCTION

- 1.1 **Identification** – This report comprises the Electrical, Electronic, and Electromechanical (EEE) As Built Parts Lists for each of the Integrated Advanced Microwave Sounding Unit A (AMSU-A) instruments. This document is submitted in accordance with the deliverable data requirements of GSPC-S-480-790, Performance Assurance Requirements (PAR) for the Earth Observing System (EOS) Meteorological Satellites Project (METSAT), section 5.4.1 under Contract No. NAS5-32314, CDRL 527.
- 1.2 **Scope** – This document lists all electrical, electronic, and electromechanical parts used on the Integrated AMSU-A instruments.
- 1.3 **Purpose and objective** – The purpose of the Electrical, Electronic, and Electronic (EEE) As-Built Parts Lists is to provide a listing of approved EEE parts actually used on the Integrated AMSU-A. There is a separate As-Built Parts List for each AMSU-A Instrument. All EEE parts used on the AMSU-A meet the parts control requirements as defined in the Parts Control Plan (PCP). All parts applications have been reviewed by the Parts Control Board (PCB) and granted approval for use on AMSU-A.
- 1.4 **Document status and schedule** – The attached submittals are the final Electrical, Electronic and Electromechanical (EEE) As-Built Parts Lists for the AMSU-A Instruments. Updates will be made as necessary because of any customer-directed rework or redesign, which involves changing/adding/deleting EEE parts.

Section 2

TABULATION

The lists herein provide listings of EEE parts that were used in the production of AMSU-A. There is a separate list for each AMSU-A Instrument. Each list provides part numbers, descriptions and next assemblies, as well as the part pedigree information (e.g. cage code, lot date code, vendor ID), for each EEE part used on that instrument.

CONFIDENTIAL

1. The purpose of this document is to provide a detailed description of the system architecture and its components. The system is designed to handle large volumes of data and provide real-time processing capabilities.

2. The system architecture is based on a modular design, allowing for scalability and flexibility. The main components of the system are the data source, the processing engine, and the output module.

3. The data source is responsible for collecting and storing data from various external systems. The processing engine is responsible for analyzing the data and generating reports. The output module is responsible for displaying the results of the analysis to the user.

4. The system is designed to be highly reliable and secure. It includes multiple layers of security and redundancy to ensure that the data is protected and the system is available at all times.

5. The system is designed to be easy to use and maintain. It includes a user interface that is intuitive and easy to navigate. It also includes a maintenance interface that allows for easy configuration and troubleshooting.

NASA FORM 1626 OCT 86

PREPARATION OF THE REPORT DOCUMENTATION PAGE

The last page of a report facing the third cover is the Report Documentation Page, RDP. Information presented on this page is used in announcing and cataloging reports as well as preparing the cover and title page. Thus, it is important that the information be correct. Instructions for filling in each block of the form are as follows:

Block 1. Report No. NASA report series number, if preassigned.

Block 2. Government Accession No. Leave blank.

Block 3. Recipient's Catalog No. Reserved for use by each report recipient.

Block 4. Title and Subtitle. Typed in caps and lower case with dash or period separating subtitle from title.

Block 5. Report Date. Approximate month and year the report will be published.

Block 6. Performing Organization Code. Leave blank.

Block 7. Authors. Provide full names exactly as they are to appear on the title page. If applicable, the word editor should follow a name.

Block 8. Performing Organization Report No. NASA installation report control number and, if desired, the non-NASA performing organization report control number.

Block 9. Performing Organization Name and Address. Provide affiliation (NASA program office, NASA installation, or contractor name) of authors.

Block 10. Work Unit No. Provide Research and Technology Objectives and Plants (RTOP) number.

Block 11. Contract or Grant No. Provide when applicable.

Block 12. Sponsoring Agency Name and Address. National Aeronautics and Space Administration, Washington, D.C. 20546-0001. If contractor report, add NASA installation or HQ program office.

Block 13. Type of Report and Period Covered. NASA formal report series; for Contractor Report also list type (interim, final) and period covered when applicable.

Block 14. Sponsoring Agency Code. Leave blank.

Block 15. Supplementary Notes. Information not included

elsewhere: affiliation of authors if additional space is required for Block 9, notice of work sponsored by another agency, monitor of contract, information about supplements (file, data tapes, etc.) meeting site and date for presented papers, journal to which an article has been submitted, note of a report made from a thesis, appendix by author other than shown in Block 7.

Block 16. Abstract. The abstract should be informative rather than descriptive and should state the objectives of the investigation, the methods employed (e.g., simulation, experiment, or remote sensing), the results obtained, and the conclusions reached.

Block 17. Key Words. Identifying words or phrases to be used in cataloging the report.

Block 18. Distribution Statement. Indicate whether report is available to public or not. If not to be controlled, use "Unclassified-Unlimited." If controlled availability is required, list the category approved on the Document Availability Authorization Form (see NHB 2200.2, Form FF427). Also specify subject category (see "Table of Contents" in a current issue of STAR) in which report is to be distributed.

Block 19. Security Classification (of the report). Self-explanatory.

Block 20. Security Classification (of this page). Self-explanatory.

Block 21. No. of Pages. Count front matter pages beginning with iii, text pages including internal blank pages, and the RDP, but not the title page or the back of the title page.

Block 22. Price Code. If Block 18 shows "Unclassified-Unlimited," provide the NTIS price code (see "NTIS Price Schedules" in a current issue of STAR) and at the bottom of the form add either "For sale by the National Technical Information Service, Springfield, VA 22161-2171" or "For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402-0001," whichever is appropriate.

GENERAL INSTRUCTIONS FOR COMPLETING SF 298

The Report Documentation Page (RDP) is used in announcing and cataloging reports. It is important that this information be consistent with the rest of the report, particularly the cover and title page. Instructions for filing in each block of the form follow. It is important to stay within the lines to meet optical scanning requirements.

Block 1. Agency Use Only (Leave blank)

Block 2. Report Date Full publication date including day, month, and year, if available (e.g., 1 Jan 88). Must cite at least the year.

Block 3. Type of Report and Dates Covered State whether report is interim, final, etc. If applicable, enter inclusive report dates (e.g., 10 Jun 87 - 30 Jun 88).

Block 4. Title and Subtitle A title is taken from the part of the report that provides the most meaningful and complete information. When a report is prepared in more than one volume report the primary title, add volume number, and include subtitle for the specific volume. On classified documents enter the title classification in parentheses.

Block 5. Funding Numbers To include contract and grant numbers; may include program element number(s), project number(s), task number(s), and work unit number(s). Use the following labels:

C	-	Contract	PR	-	Project
G	-	Grant	TA	-	Task
PE	-	Program Element	WU	-	Work Unit Accession No.

Block 6. Author(s) Name(s) of person(s) responsible for writing the report, performing the research, or credited with the content of the report. If editor or compiler, this should follow the name(s).

Block 7. Performing Organization Name(s) and Address(es) Self-explanatory.

Block 8. Performing Organization Report Number Enter the unique alphanumeric report number(s) assigned by the organization performing the report.

Block 9. Sponsoring/Monitoring Agency Name(s) and Address(es) Self-explanatory.

Block 10. Sponsoring/Monitoring Agency Reports Number (if known).

Block 11. Supplementary Notes Enter information not included elsewhere such as: Prepared in cooperation with ...; Trans. of ...; To be published in ... When a report is revised, include a statement whether the new report supersedes or supplements the older report.

Block 12.a Distribution/Availability Statement Denotes public availability or limitations. Cite any availability to the public. Enter additional limitations or special markings in all capitals (e.g., NOFORN, REL, ITAR).

DOD - See DoDD 5230.24 *Distribution Statement on Technical Documents*

DOE - See authorities.

NASA - See Handbook NHB 2200.2.

NTIS - Leave blank.

Block 12.b Distribution Code

DOD - Leave blank.

DOE - Enter DOE distribution categories from the standard Distribution for Unclassified Scientific and Technical Reports.

NASA - Leave blank.

NTIS - Leave blank.

Block 13. Abstract Include a brief *Maximum 200 words* factual summary of the most significant information contained in the report.

Block 14. Subject Terms Keywords or phrases identifying major subjects in the report.

Block 15. Number of Pages Enter the total number of pages.

Block 16. Price Code Enter appropriate price code (NTIS only).

Block 17 - 19. Security Classifications Self-explanatory. Enter U.S. Security Classification in accordance with U.S. Security Regulations (i.e., UNCLASSIFIED). If form contains classified information, stamp classification on the top and bottom of the page.

Block 20. Limitation of Abstract This block must be completed to assign a limitation to the abstract. Enter either UL (unlimited) or SAR (same as report). An entry in this block is necessary if the abstract is to be limited. If blank, the abstract is assumed to be unlimited.
